Pablo Agustín Barazzutti

Front-end Web Developer · Technical Support

Profile

Front-end web developer with hands-on experience building and maintaining websites for real estate firms and businesses in the United States. I work with HTML, CSS, JavaScript and CMS platforms, with a strong focus on design, user experience and SEO, and I provide direct technical support to English-speaking clients. I use generative AI tools every day to deliver faster without compromising quality. My scientific background (Oceanography, UNS) brings analytical thinking and problem-solving skills.

Experience

Web Developer & Technical Support — 2025 – Present

SaleCore · Fairfield, California, USA · Remote

- Designed and built 10+ websites for U.S. real estate agents and brokerages on the SaleCore platform, with integrated property search (IDX/MLS).
- Created custom sections and components with HTML, CSS and JavaScript inside the CMS: responsive and tailored to each brand's identity.
- Redesigned and migrated existing websites and improved on-page SEO.
- Provided front-end and back-end technical support to English-speaking clients: troubleshooting, issue resolution and content updates.

Web Designer & Developer — 2024

Bz Diseño Web · Own business

- End-to-end websites: client discovery, design in Figma and development in WordPress and HTML/CSS.

UX/UI Design Intern — 2024

GAO Tek Inc. · New York, USA · Remote

- Interface design and user-experience improvement proposals within an international team.

Social Media Designer — 2018 – 2019

Provencred · Bahía Blanca, Argentina

Customer service and water-sports instruction at Escuela de Mar Puerto Madryn (2014–2021) and La Pacheca Restobar (2022–2023).
